

Full name: Amirzhanova Lazzat Tultaevna

Education:

1986-1991: Pavlodar Industrial Institute, specialty "Industrial Thermal Power engineering", industrial thermal power engineer.

Work experience:

Academic:

Work in this organization

1 September 2020– Senior Lecturer at the Department of "Energy Engineering" of the Academician K.Satpayev Institute of Physics and Technology
Until now:

1 September 2025– The list of subjects taught is "Occupational safety and Industrial Ecology",
Until now: "Energy saving in thermal power engineering and heat technology", "Nuclear Power Engineering".

1 September 2025– Employment (part-time work)

Until now:

Previous jobs in educational organizations:

1997-2002: EITI Lecturer of the Department of "Production and distribution of electric energy"

2002-2003: EITI Senior Lecturer of the Department of "Production and Distribution of Electric Energy"

2003-2009: EITI Senior Lecturer of the Department of Thermal Power Engineering

1997-2009: List of subjects taught
"Occupational safety", "Ecology", "Life safety", "Heating and heating networks", "Corrosion and conservation of thermal equipment", "Fundamentals of energy conservation", "Non-traditional energy sources".

1997-2007: Full-time

2007-2009: Not a full-time job

Non-academic:

1991: CHPP-6 g. Kzyl is a Horde. laboratory assistant in the Chemical workshop
Full-time

1991-1995: Vesna Plant, a student of the TKBN installer
Full-time

1995-1996: Ekibastuzenergoremont electrician for 2nd-class winding repair
Employment (full-time)

2007-2017: Ekibastuzskaya GRES-1im B.Nurzhanova

2007-2013: Engineer in the workshop "Repair of the main boiler equipment"

2013-2016: Process Analysis Engineer in the "Production and Technical Department"

2016-2017: Leading Energy conservation Engineer in the "Production and Technical Department"

2017-2019: Astana Energy JSC CHPP-2 engineer in the "Production and Technical Department"

2019: Ekibastuzskaya GRES-1 named after B.Nurzhanov

2019: Process Analysis Engineer in the "Production and Technical Department"

2019-2020: Engineer of the 2nd category for the analysis and accounting of TEP in the "Production and Technical Department"

2025: The leading engineer for the organization of production management in the "Production and technical department"

Professional development:

03.07.2023- Certificate of completion of the advanced training course on the topic

14.07.2023 "Occupational safety and ecology (Engineering Ecology. Occupational safety and industrial ecology. Electrical safety. Labor protection in the thermal power

- industry)" in Ekibastuz, the Center for training and retraining of personnel of the thermal power complex;
- 13.09.2023 Certificate of successful completion of the program for the development of general professional competencies in occupational safety and health in Ekibastuz, Training center of LLP "Ekibastuzskaya GRES-1 named after Bulat Nurzhanov";
- 02.08.2021-14.08.2021 Certificate of completion of the advanced training course on the topic "Occupational safety and ecology (Occupational safety and industrial ecology. Engineering Ecology)", Non-governmental Center for Quality Assessment, Nur-Sultan.

Membership in professional organizations:

2020: there is
